

AMENDED

30 January 2009

To: Provincial Unions Secretaries
(and to Executive Members for Information)

Re: Handicap Service Providers

The S.A.G.A. Handicapping Committee has given approval to the following five IT companies to calculate member's handicaps at clubs with whom they have entered contracts into to supply such service:

GolfIT
EziGolf
GolfTime
The Golfers Card
RealTime Golf

Golfers in possession of any of the above handicap swipe cards are deemed to have an official handicap which is recognized by the S.A.G.A.

It is the clubs responsibility to ascertain if the clubs of which these golfers are members of are affiliated to a golf Union and the S.A.G.A.

Should a golfers name not appear on the National Golf Network system it does not in any way mean that such golfer is not a member of an affiliated club or does not have an official handicap. However, the onus still remains with the club to verify such golfer's handicap and affiliation status.

Please circulate this document to all your affiliated clubs.
